

## Covid-19 Statement

June 24th

In light of restrictions being lifted in England, and the restrictions and requirements being implemented by the government, SportCheer Wales are working on a plan to return to cheer and dance once restrictions are also lifted in Wales.

The following actions have been taken;

1. A letter has been sent to the Welsh Government, sport Wales and local councillors to request that cheerleading and dance be considered in the return to sporting plans.
2. A task force group has been set up within the national body to solely work on this plan and work on documentation necessary to facilitate this change
3. A resource pack is being created by the body to assist programmes with making these changes
4. This support is designed to be in place at every stage of lockdown in Wales before any restrictions are lifted. This may be disseminated in sections if we are given little notice of changes
5. Resources will be designed for use by all programmes, you are welcome to add your own logos.

Should you require any further assistance from the national body, please feel free to contact us at [info@SCWales.org](mailto:info@SCWales.org)
