

## Covid - 19 Guidance July 31st Welsh Government Announcement

Following the announcements made by the Welsh Government on July 31st 2020 with regard to easing lockdown restrictions, SportCheer Wales would like to present a clarification to the following guidance;

**'From Monday, August 3, children under the age of 11 will no longer have to maintain a 2m distance from each other or from adults.'**

This guidance seems to be designed to tackle the impracticalities of trying to keep younger children apart, however, parents and carers are advised to keep close contact to a minimum wherever possible.

To this end, SportCheer Wales currently advises that lessons including spotted tumbling or stunting for children of primary age should not be run by programmes, and that any unnecessary contact in outdoor classes should continue to be avoided.

Further guidance regarding the latest updates and return to indoor training will be released in the coming days.
